**Tempurature Rating:**

1315.0 degrees celsius

**Basic Ingredient:**

Petroleum base

**Quantity Within Each Unit Package:**

8.000 ounces

**Product Name:**

Marine grade anti-seize

**Special Features:**

Marine grade anti-seize protects assemblies exposed directly or indirectly to fresh and salt water; water wash-out and water spray resistance, prevents galvanic corrosion; protects in temperatures from minus 29 degrees c to plus 1315 deg. C

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A535n0
