Tempurature Rating:

1315.0 degrees celsius

Basic Ingredient:

Petroleum base

Quantity Within Each Unit Package:

8.000 ounces

Product Name:

Marine grade anti-seize

Special Features:

Marine grade anti-seize protects assemblies exposed directly or indirectly to fresh and salt water; water wash-out and water spray resistance, prevents galvanic corrosion; protects in temperatures from minus 29 degrees c to plus 1315 deg. C

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535n0
