**Tempurature Rating:**

250.0 degrees fahrenheit

**Basic Ingredient:**

Molybdenum disulfide

**Quantity Within Each Unit Package:**

17.600 ounces

**Usage Design:**

For lubricating metal assemblies, press fittings, threaded connections in high pressure applications

**Special Features:**

Gray-black; paste

**Supplementary Features:**

17.6 ounce can

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A535n0
