**Physical Form:**

Liquid

**Quantity Within Each Unit Package:**

1.750 fluid ounces

**Specific Usage Design:**

For promoting adhesion of anaerobic adhesives and sealants to passive metals or other inert surfaces or where there is a large bond gap

**Special Features:**

Copper salt and aliphatic amine

**Color:**

Clear

**Supplementary Features:**

1.75 ounce bottle

**Specification Data:**

81346-astm d5363 professional/industrial association standard

**Specification Or Standard:**

N grade

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A535p0
