Physical Form:

Liquid

Quantity Within Each Unit Package:

1.750 fluid ounces

Specific Usage Design:

For promoting adhesion of anaerobic adhesives and sealants to passive metals or other inert surfaces or where there is a large bond gap

Special Features:

Copper salt and aliphatic amine

Color:

Clear

Supplementary Features:

1.75 ounce bottle

Specification Data:

81346-astm d5363 professional/industrial association standard

Specification Or Standard:

N grade

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A535p0
