Physical Form:
Liquid
Quantity Within Each Unit Package:
1.750 fluid ounces
Specific Usage Design:
For promoting adhesion of anaerobic adhesives and sealants to passive metals or other inert surfaces or where there is a large bond gap
Special Features:
Copper salt and aliphatic amine
Color:
Clear
Supplementary Features:
1.75 ounce bottle
Specification Data:
81346-astm d5363 professional/industrial association standard
Specification Or Standard:
N grade
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A535p0
