Tempurature Rating:
-450.0 degrees fahrenheit and 260.0 degrees fahrenheit
End Application:
Sealant
Physical Form:
Таре
Quantity Within Each Unit Package:
50.000 feet
Specific Usage Design:
Joint and flange sealant
Product Name:
Flange sealant tape
Special Features:
24b expanded 100percent virgin ptfe joint sealant; resistant to creep and cold flow; supplied as continuous tape with self-adhesive backing
strip; soft and marshmallow-like; for 5 to 8 inch pipe flanges 3/8inch wide 50feet spool
Color:
White
Material:
Plastic tetrafluoroethylene
Special Test Features:
Pressure static full vacuum to 2900 psi; ph 0-14 (except molten alkali metals and elemental fluorine)
Supplementary Features:
Fulfills the fda 21 cfr 177.1550 perfluorocarbon requlations; no smell, no taste; will not contaminate flow media
Shelf Life:
N/a
Unit Of Measure:
<del></del>
Demilitarization:
No
Fiig:
A536d0
