**Tempurature Rating:**

1400.0 degrees fahrenheit

**Basic Ingredient:**

Metal oxides

**Quantity Within Each Unit Package:**

155.000 grams

**Usage Design:**

For preventing galling of threaded fasteners

**Special Features:**

Inorganic dry film; apply by brush; 10 to 60 minutes air dry cure time

**Supplementary Features:**

155 gram jar

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A535n0
