Tempurature Rating:

80.0 degrees fahrenheit

Physical Form:

Solid

Curing Method:

Air dried

Rated Drying Time:

20.0 hours

Product Name:

Cs 91 epoxy sealing compound

Special Features:

Type iii, non-sag consistency, high viscosity; two parts: base and catalyst; storage life: 9 months original unopened containger at temperatures below 80 degrees f.

Color:

Off-white and pink

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A536d0
