Tempurature Rating:
80.0 degrees fahrenheit
Physical Form:
Solid
Curing Method:
Air dried
Rated Drying Time:
20.0 hours
Product Name:
Cs 91 epoxy sealing compound
Special Features:
Type iii, non-sag consistency, high viscosity; two parts: base and catalyst; storage life: 9 months original unopened containger at
temperatures below 80 degrees f.
Color:
Off-white and pink
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
A536d0
