**Tempurature Rating:**

80.0 degrees fahrenheit

**Physical Form:**

Solid

**Curing Method:**

Air dried

**Rated Drying Time:**

20.0 hours

**Product Name:**

Cs 91 epoxy sealing compound

**Special Features:**

Type iii, non-sag consistency, high viscosity; two parts: base and catalyst; storage life: 9 months original unopened containger at temperatures below 80 degrees f.

**Color:**

Off-white and pink

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A536d0
