Physical Form:

Tape

Quantity Within Each Unit Package:

100.000 feet

Specific Usage Design:

For sealing aircraft access panels, pressure barriers, and mold line surface close out panels where gaskets are required

Special Features:

Continuous, non-ribbed; 0.75 in. Tape width; 0.125 in. Tape thickness; adhesive backed

Color:

Gray

Material:

Plastic tetrafluoroethylene

Specification Data:

81343-ams3255 professional/industrial association standard

Specification Or Standard:

2 class and 1 type and 6 form

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A536d0
