Physical Form:
Tape
Quantity Within Each Unit Package:
100.000 feet
Specific Usage Design:
For sealing aircraft access panels, pressure barriers, and mold line surface close out panels where gaskets are required
Special Features:
Continuous, non-ribbed; 0.75 in. Tape width; 0.065 in. Tape thickness; adhesive backed
Color:
Gray
Material:
Plastic tetrafluoroethylene
Specification Data:
81343-ams3255 professional/industrial association standard
Specification Or Standard:
2 class and 1 type and 4 form
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A536d0
