Physical Form:

Liquid

Quantity Within Each Unit Package:

1.0 pints

Specific Usage Design:

For sealing abs, pvc, cpvc and polypropylene plastic pipe threads

Special Features:

Non-hardening; maleic/methy acetate based; low toxicity; contains no ptfe (ptfe); service temperature range of minus 65 degrees f to plus 400 def f

Color:

White

Material:

Resin

Supplementary Features:

1 pint can with brush top

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A536d0
