Application Type:

Cold or hot

Quantity Within Each Unit Package:

5.0 liters

Usage Design:

For long-term protection of metallic surfaces in indoor or outdoor exposure and during international shipments; ambient product/temperature at time of application: 50 to 94 degrees f

Film Thickness:

2.5 millimeters

Product Name:

Asphaltic corrosion preventive compound

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535w0
