End Application:

C5 aircraft

Product Name:

Resin, epoxy casting magnabond

Special Features:

Color: clear amber; physical state: liquid; odor: amine; boiling point: 107.30 deg. C.; flash point: >93.40 deg. C.; relative density: 0.95; hazardous polymerization will not occur;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
