Physical Form:

Liquid

Quantity Within Each Unit Package:

5.0 fluid ounces

Specific Usage Design:

Used by aircraft industry to indicate sabotage, tampering, alteration or vibration loosening.

Curing Method:

Air dried

Rated Drying Time:

20.0 seconds

Product Name:

Tamper proof sealant

Special Features:

Fast-drying, fire retardant; density: 1.5 g/cc; percent volatile: 25-35; volatile organic compounds: 399 gram per litre

Color:

Pink

Material:

Plastic phenolic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A536d0
