Physical Form:

Liquid

Quantity Within Each Unit Package:

12.000 ounces

Specific Usage Design:

Structural adhesive for bonding metal to metal parts

Features Provided:

Separate catalyst and heat vulcanize feature

Special Features:

Intermediate temperature setting "interior and exterior containers shall be marked in accordance with mil-std-129. Exterior containers shall be marked with the date of contents, by month and year, not by code, and shall also be marked with a note relative to storage, such as:

"adhesives conforming to this specification shall be stored at a temperature of less than 86 f (30 c) in the absence of direct sunlight. If transit or normal storage conditions, or both necessitate exposure of the adhesive to temperatures in excess of 86 f (30 c) the life of the adhesive will be proportionally reduced."

Material:

Plastic epoxy

Supplementary Features:

12 ounce kit

Specification Or Standard:

2 type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
