Physical Form:

Liquid

Quantity Within Each Unit Package:

1.000 pints

Specific Usage Design:

For use on nuclear propulsion plants

Criticality Code Justification:

Feat

Special Features:

In accordance with navships systems command code 08 individual repair parts ordering data

Material:

Rubber butadiene-acrylonitrile class nbr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
