Physical Form:

Liquid

Quantity Within Each Unit Package:

1.000 pounds

Specific Usage Design:

For electronics bonding applications

Features Provided:

Separate catalyst and heat vulcanize feature

Special Features:

Copper filled; electrically conductive

Color:

Brown

Material:

Plastic epoxy

Supplementary Features:

1 pound kit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A535p0
