Physical Form:

Film

Specific Usage Design:

Structural adhesive for bonding honeycomb to metal and metal to metal

Special Features:

Supported; 0.017 to 0.019 in. Thickness; 0.085 to 0.095 psf weight; cures at 300 degrees f; service temperature range of minus 67 degrees f to plus 400 degrees f; non-asbestos; must be shipped and stored at 0 degrees f or below

Color:

Yellow

Material:

Plastic epoxy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
