Physical Form:

Paste

Specific Usage Design:

For encapsulating electronic embedments

Features Provided:

Separate catalyst

Special Features:

Low shrinkage; service temperature range of minus 75 degrees c to plus 175 degrees c

Color:

Black

Material:

Plastic epoxy

Supplementary Features:

1 quart resin and 2 ounces of catalyst 9

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
