**Physical Form:**

Paste

**Specific Usage Design:**

For electronics bonding applications

**Features Provided:**

Separate catalyst

**Special Features:**

Carbon filled; electrically conductive

**Color:**

Black

**Material:**

Plastic epoxy

**Supplementary Features:**

12 ounces resin and 4 ounces curing agent

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A535p0
