Physical Form:

Liquid and powder

Specific Usage Design:

For embedding heating elements, coating resistors and coils, and mechanically sealing parts where high resistance to electricity, chemicals and thermal shock is required

Features Provided:

Separate catalyst

Special Features:

Zirconium silicate; inorganic; low expansion; non-toxic; withstands temperatures up to 1550 degrees f

Color:

Tan

Supplementary Features:

1 gallon powder and 1 quart liquid

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
