Physical Form:

Film

Specific Usage Design:

Used to texture the surface of a composite laminate

Curing Method:

Heat

Product Name:

Non-coated peel plies

Special Features:

After removing the peel ply the surface accommodates secondary bonding or painting of the composite laminate. This product is scoured and heat set to remove contaminants and reduce shrinkage

Color:

White

Material:

Plastic polyester

Special Test Features:

recommended use temperature is 400 deg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
