Physical Forr	n:
Film	
Specific Usag	ge Design:
Structural adh	esive for bonding metals especially where high peel strength is required
Features Prov	vided:
Heat vulcanize	e feature
Special Featu	res:
5 in. Roll width	; 36 yard roll length; 0.025 to 0.040 psf weight; 0.006 in. Thickness; flexible unsupported film; cures at temperatures from
275 to 400 de	grees f; acrylonitrile-butadiene-copolymer phenol formaldehyde polymer; store at 40 degrees f
Color:	
Yellow	
Supplementa	ry Features:
45 square foot	roll
Shelf Life:	
N/a	
Unit Of Meas	ure:
Demilitarizati	on:
No	
Fiig:	
A535p0
