Physical Form:

Liquid

Quantity Within Each Unit Package:

2.000 gallons

Specific Usage Design:

For bonding dense thermal insulations such as calcium silicate and expanded perlite to itself and to non-porous surfaces

Rated Drying Time:

1.000 hours

Special Features:

Sodium silicate; not for use with glass fiber or other alkali sensitive insulations

Color:

Gray

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
