Physical Form:

Film

Specific Usage Design:

For making high strength laminates for aircraft and missile applications such as radomes, fairings and miscellaneous parts

Special Features:

Heat resistant; 617.5 sq ft roll; fiberglass carrier; must be stored at 0 degrees f; 90 day shelf life but may last 6 months at 0 degrees f; 3 roll order

Material:

Plastic epoxy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
