Physical Form:

Powder

Specific Usage Design:

For bonding, sealing and encapsulating applications

Special Features:

Premixed and frozen; 0.040 in. Pellet size; refrigerated storage required; service temperature range of minus 54 degrees c to plus 175 degrees c

Color:

Black

Material:

Plastic epoxy

Supplementary Features:

1000 pellets

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A535p0
