Physical Form:
Paste
Specific Usage Design:
For casting, edging, caulking and bonding inserts in metal core sandwich panels
Features Provided:
Separate catalyst
Rated Drying Time:
24.000 hours
Special Features:
Thixotropic; room temperature cure or elevated temperature cure; 16 to 24 hour cure at 77 degrees f, 3 hours at 165 degrees f, 1 hour at
200 degrees f
Color:
Amber
Material:
Plastic epoxy
Supplementary Features:
1 quart resin and 1 quart hardener
Shelf Life:
N/a
Unit Of Measure:
<del></del>
Demilitarization:
No
Fiig:
A535p0
