Physical Form:

Liquid

Quantity Within Each Unit Package:

1.000 gallons

Specific Usage Design:

For bonding a wide variety of plastics, films, and glass

Special Features:

Modified urethane polymer which can be used alone or as a two component system when combined with a tyceI 7200 series curing agent

Color:

Amber

Material:

Plastic polyurethane

Supplementary Features:

1 gallon can

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
