**Physical Form:**

Liquid

**Quantity Within Each Unit Package:**

1.000 pounds

**Specific Usage Design:**

For electronics bonding applications

**Features Provided:**

Separate catalyst and heat vulcanize feature

**Rated Drying Time:**

1.000 hours

**Special Features:**

Silver filled; electrically conductive; elevated temperature cure; 1 hour at 80 degrees c or 5 minutes at 150 degrees c

**Color:**

Silver

**Material:**

Plastic epoxy

**Supplementary Features:**

1 pound kit

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A535p0
