**Physical Form:**

Liquid

**Quantity Within Each Unit Package:**

20.000 grams

**Specific Usage Design:**

For bonding metal, plastic and elastomeric materials; specifically formulated for difficult to bond substrates

**Rated Drying Time:**

20.000 seconds

**Special Features:**

Ethyl cyanoacrylate; low viscosity; service temperature range of minus 65 degrees f to plus 180 degrees f; 24 hour full cure time

**Color:**

Clear

**Material:**

Plastic

**Supplementary Features:**

20 gram bottle

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A535p0
