Physical Form:

Film

Specific Usage Design:

For use in structural laminates and honeycomb core sandwich panels for aircraft

Rated Drying Time:

2.000 hours

Special Features:

38 in. Roll width; 150 ft roll length; 200 degrees f continuous duty service; epoxy resin woven kevlar fabric; store at 0 degrees f

Color:

Amber

Material:

Plastic epoxy

Supplementary Features:

1 square yard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
