Physical Form:
Liquid
Quantity Within Each Unit Package:
1.000 pounds
Specific Usage Design:
For use where high compression stress is applied to encapsulated electronic circuitry
Features Provided:
Separate catalyst
Rated Drying Time:
24.000 hours
Special Features:
Forms a low density, high strength foam
Material:
Plastic epoxy
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A535p0
