Special Features: 12 x 24 in. Sheet; 0.025 in. Thickness; foaming type; unsupported; non-asbestos formulation; cures at 250 degrees f; must be shipped and stored at 0 degrees f or below; 100 sheet order Color: Black Material: Plastic epoxy Supplementary Features: One 12 in. X 24 in. Sheet Shelf Life: N/a Unit Of Measure: Demilitarization: No	sical Form:
2.000 square feet Specific Usage Design: For splicing and closeout of honeycomb panels Features Provided: Heat vulcanize feature Special Features: 12 x 24 in. Sheet; 0.025 in. Thickness; foaming type; unsupported; non-asbestos formulation; cures at 250 degrees f; must be shipped and stored at 0 degrees f or below; 100 sheet order Color: Black Material: Plastic epoxy Supplementary Features: One 12 in. X 24 in. Sheet Shelf Life: N/a Unit Of Measure: Demilitarization: No	
Specific Usage Design: For splicing and closeout of honeycomb panels Features Provided: Heat vulcanize feature Special Features: 12 x 24 in. Sheet; 0.025 in. Thickness; foaming type; unsupported; non-asbestos formulation; cures at 250 degrees f; must be shipped and stored at 0 degrees f or below; 100 sheet order Color: Black Material: Plastic epoxy Supplementary Features: One 12 in. X 24 in. Sheet Shelf Life: N/a Unit Of Measure: Demilitarization: No	ntity Within Each Unit Package:
For splicing and closeout of honeycomb panels Features Provided: Heat vulcanize feature Special Features: 12 x 24 in. Sheet; 0.025 in. Thickness; foaming type; unsupported; non-asbestos formulation; cures at 250 degrees f; must be shippe and stored at 0 degrees f or below; 100 sheet order Color: Black Material: Plastic epoxy Supplementary Features: One 12 in. X 24 in. Sheet Shelf Life: N/a Unit Of Measure: Demilitarization: No	0 square feet
Features Provided: Heat vulcanize feature Special Features: 12 x 24 in. Sheet; 0.025 in. Thickness; foaming type; unsupported; non-asbestos formulation; cures at 250 degrees f; must be shipped and stored at 0 degrees f or below; 100 sheet order Color: Black Material: Plastic epoxy Supplementary Features: One 12 in. X 24 in. Sheet Shelf Life: N/a Unit Of Measure: Demilitarization: No	cific Usage Design:
Heat vulcanize feature Special Features: 12 x 24 in. Sheet; 0.025 in. Thickness; foaming type; unsupported; non-asbestos formulation; cures at 250 degrees f; must be shipped and stored at 0 degrees f or below; 100 sheet order Color: Black Material: Plastic epoxy Supplementary Features: One 12 in. X 24 in. Sheet Shelf Life: N/a Unit Of Measure: Demilitarization: No	splicing and closeout of honeycomb panels
One 12 in. X 24 in. Sheet Shelf Life: N/a Unit Of Measure: Demilitarization: No	ures Provided:
12 x 24 in. Sheet; 0.025 in. Thickness; foaming type; unsupported; non-asbestos formulation; cures at 250 degrees f; must be shipped and stored at 0 degrees f or below; 100 sheet order Color: Black Material: Plastic epoxy Supplementary Features: One 12 in. X 24 in. Sheet Shelf Life: N/a Unit Of Measure: Demilitarization: No	t vulcanize feature
and stored at 0 degrees f or below; 100 sheet order Color: Black Material: Plastic epoxy Supplementary Features: One 12 in. X 24 in. Sheet Shelf Life: N/a Unit Of Measure: Demilitarization: No	cial Features:
