Specific Usage Design:

Bonding abs, natural rubber and balsa

Curing Method:

Air dried

Rated Drying Time:

Between 1.000 seconds and 10.000 seconds

Special Features:

600 cp viscosity; 0.17 mm gap fill; 3400 psi shear tensile strength; -80 to 80 degrees c temp range; surface insensitive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
