Physical Form:

Paste

Specific Usage Design:

For treating and bonding polytetrafluoroethylene resins

Features Provided:

Separate catalyst

Special Features:

Includes 4 oz bottle of treating agent

Material:

Plastic epoxy

Supplementary Features:

53.2 grams part a cement and 45.3 grams part b cement

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
