End Application:

F-22 weapon system

Physical Form:

Liquid

Curing Method:

Heat

Special Features:

Storage temperature is 10 degrees or colder for a shelf life of 24 months. Storage temperatures above 10 degrees shortens the shelf life to 21 days

Color:

Yellow

Material:

Ceramic or fiber or silicone

Supplementary Features:

Local exhaust ventilation required, avoid skin contact

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
