End Application:

C-17a aircraft

Component Quantity:

16

Nonsupply Items And Quantities:

Consists of mi-15 type ii (parts a, b, and c) premeasured; mi-15 topcoat (parts a and b) premeasured; dc-1200 adhesion primer; 5 pair of polyethylene gloves; 2 spatulas, 2 acid brushes, and 1 lint-free cloth

Usage Design:

For repairing damaged mi-15 and topcoat insulation materials up to 26 square inches

Special Features:

Max work life at 50 to 70 degrees f is 10 minutes; cure time at room temperature is 24 hours for adhesive; cure time for topcoat is 12 to 24 hours

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
