**Physical Form:**

Film

**Product Name:**

Double sided thermoplastic adhesive film

**Special Features:**

Platten press temperature: 300 - 325 degrees f; pressure: 40 - 80 psi; dwell in press: approx. 15 min.; two sided flame retardant polyester heat seal adhesive coated polyimide film; polyimide thickness: 3 mil; adhesive thickness: 2mil / 2 sides; manufacturers item name: flame retardant heat seal coated polyimide film

**Material:**

Plastic polyester and plastic

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A535p0
