Physical Form:

Film

Product Name:

Double sided thermoplastic adhesive film

Special Features:

Platten press temperature: 300 - 325 degrees f; pressure: 40 - 80 psi; dwell in press: approx. 15 min.; two sided flame retardant polyester heat seal adhesive coated polyimide film; polyimide thickness: 3 mil; adhesive thickness: 2mil / 2 sides; manufacturers item name: flame retardant heat seal coated polyimide film

Material:

Plastic polyester and plastic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A535p0
