End Application:

B-2b acft

Physical Form:

Paste and liquid

Specific Usage Design:

Conductive fillet sealing and fay surface sealing

Curing Method:

Air dried

Minimum Flash Point:

95.0 degrees celsius

Features Provided:

Separate catalyst and dye

Product Name:

Silicone caulk; conductive silicone sealant/caulk

Special Features:

Part a is a brownish gray paste, part b is a translucent yellow

Color:

Gray and yellow

Material:

Silicone

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
