Physical Form:

Liquid

Quantity Within Each Unit Package:

1.000 gallons

Specific Usage Design:

Contact adhesive for laminating applications

Features Provided:

Separate catalyst

Special Features:

Heat resistant

Color:

Cream

Material:

Rubber neoprene

Supplementary Features:

1 gallon kit; kit contains 1 gallon base with 1 pint curing agent

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A535p0
