**Temperature Rating:**

120.0 degrees celsius

**Physical Form:**

Film

**Specific Usage Design:**

Used for co-cure and secondary composite bonding applications

**Special Features:**

Specific material for which formulated: metal

**Color:**

Red

**Material:**

Plastic epoxy

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A535p0
