**End Application:**

F-22 aircraft

**Physical Form:**

Paste

**Specific Usage Design:**

Aircraft jet engine vane potting and damping

**Curing Method:**

Heat

**Features Provided:**

Separate catalyst

**Rated Drying Time:**

16.000 hours

**Product Name:**

Rhodorsil v-612

**Special Features:**

V-612 is a black thixotropic two part component, addition cure aerospace sealant

**Color:**

Black

**Material:**

Rubber

**Supplementary Features:**

Rated drying time at 75 degrees plus 1 hr at 300 deg

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A535p0
