Storage Temperature Range:

+60.0/+80.0 degrees fahrenheit

Component Quantity:

130

Document Type:

Technical bulletin

Approximate Shelf Life:

2.0 years

Document Identification:

60-9700-0053-9

Product Name:

Coating repair kit

Special Features:

Coating repair for applications in aerospace, marine, transportation and electronics

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
