End Application:

Nimrod mr2

Physical Form:

Solid

Curing Method:

Air dried

Features Provided:

Heat vulcanize feature

Rated Drying Time:

20.000 minutes

Product Name:

Sealant, silicone rubber, single component

Special Features:

One-component, room temperature-vulcanizing (rtv) silicone; controlled-volatility sealant; hardness (durometer) shore a; 400 psi tensile strength; 400 per cent elongation

Material:

Rubber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
