Usage Design:
Employed as a hardener in epoxy resin system
Igniting Characteristic:
Flammable
Product Name:
Nadic methyl anhydride
Special Features:
Excellent weathering nad aging properties; resistance to heat and arcing; superior thermal mechanical and electricl properties; uses for
filament winding, potting, encapsulation, and high performance electrical boards
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
A536p0
