Physical Form:

Liquid

Quantity Within Each Unit Package:

50.0 milliliters

Specific Usage Design:

Used to bond flat parts together

Minimum Flash Point:

90.0 degrees celsius

Special Features:

Transparent, light liquid; formulated for toughness and impact strength; odor sharp, irritating; product type anaerobic; product name speedbonde (tm) 324 structural adhesive

Color:

Amber or yellow

Material:

Plastic polyurethane

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535p0
